LOCAL NEWS.

TUESDAY NEXT (VICTORIA DAY) is a public holiday. All places of business in Stony Plain will be closed.

Mr and Mrs D W Pattie spent the week-end with Mr and Mrs Jacob Baron, motor ing back home, Monday, to Rocky Mountain House.

Col. Bryan, Commissioner of A.P. Police, was a Sunday visitor at the local Detachment.

Mr Lyle Barrie, well known in connection with the summer resort at the Beach, has gone to the Coast, for a trip.

'Tis rumored in society that Mr Louie Graft has gone to Fort Saskatchewan.

The Editor has received a very cheerful letter from Mr E H Goltz, Chicago, recently of Stony Plain. Here is one boy who was sure glad to get back home. Erwin is kept busy receiving calls from old friends, anxious to congratulate him on his safe return from the wild and woolly west.

The English concert given in Edmonton Friday night by Concordia College Choir attracted a few carloads of local people. The concert was first-class. The choir boys are arranging to repeat their concert in Stony at an early date.

On Friday last the ball players of St. Matthew school engaged the Public school Juniors on local grounds, and beat the latter by 2 to 0. St. Matthew: Joe Miller, Louie Miller, Otto Miller, W. Bredo, H. Merrick, O. Oppertshanser, Albert Oppertshanser, Edw. Mayer, E. Hennig. Public: H. Outway, Art Davis, E. & R. Lory, P. Smith; Louie, Otto & Emil Wudel.

The services held in the Town Hall on Sunday morning by Rev. Father Keenan were well attended. Services will be held again in the same place Sunday, June 5.

The very profitable business which farmers along the Baseline have been enjoying this spring of pulling stranded autos out of mud-holes has fallen off within the past week; and almost every day, now, some car makes the record of getting thru from the Grove to Stony under its own power.

The district superintendent of postal service has issued posters, inviting applications from Stony Plain and district residents for the vacant position of postmaster in Stony. The present salary is stated to be \$1044.36 plus a rent allowance of \$219 per annum. Mrs M M Foerster is said to have been appointed post-mistress pro tem, with Mr J J Nolan as assistant. This arrangement to continue until the appointment of a permanent incumbent. There is said to be a number of eligible young men who have filed their applications for the position.

Western Canada Points the Way

One of the most notable gatherings of the year, and one in which all the people of Western Canada were particularly and directly interested was the international cooperative wheat pool conference held at Kansas City, and at which representatives were present from the United States, Australia, Germany, Russia, as well as from this country great wheat producing provinces of Canada.

Western Canada was easily the outstanding and dominant factor at the conference. And rightly so because in three short years the farmers of the Prairie Provinces have organized and developed the greatest grain handling cooperation in the known world. Their success has been phenomenal, outstripping anything of a like character ever attempted in connection with any commodity. They can speak from actual experience in definite achievement.

It is not surprising, therefore, that at the Kansas City conference the reports presented on behalf of the Alberta, Saskatchewan and Manitoba Pools, and their common central selling agency, were received with great enthusiasm, and that the views expressed and suggestions advanced by the Canadians commanded respect and gave strength to the deliberations of the conference.

Many of our own people have not yet grasped the full magnitude of the operations of the wheat pool, nor realize just how much has been accomplished in the brief period of approximately 1,000 days. Three years ago there was no Canadian Pool. Today, to quote A. J. McPhail, president of the Saskatchewan pool and of the Central Selling pool, there is a membership of 128,000 in the three provinces. In 1924-25 the Canadian pool handled 187,000,000 bushels of wheat belonging to its farmer members and 27,000,000 bushels of coarse grains. The pool has representatives in all wheat importing countries and ships direct to sixty European ports. It owns and controls approximately 650 country elevators in the three provinces with a combined storage capacity of approximately 25,000,000 bushels. At the head of the lakes the pool has six terminal elevators with a storage capacity around 18,000,000 bushels and also a 2,500,000 transfer house at Buffalo. The pool is also operating terminal elevators at Prince Rupert and Vancouver, while plans are under way for large extensions to the country elevator systems in all the provinces. Since the pool began to operate it has paid its farmer members around half a billion dollars.

These are truly remarkable achievements, but they do not tell the whole story. The pool has practically revolutionized the financing methods of our Western farmers. Instead of the farmer getting all his money in one bulk sum every Fall, at which time every creditor made immediate demand upon him, with the result that he was practically forced to sell his wheat at the then prevailing price, and by all following the same course glutting the market, he now receives a first payment and several successive payments spread over the year. The result is not only orderly marketing of the wheat but orderly financing on the part of the farmer. He is to an ever increasing extent conducting his business on cash rather than a credit basis. The system has been of wonderful assistance to the weaker, less business like farmers.

Equally important has been the effect the pool has had in restoring confidence to the farmer and to business interests generally throughout the west. It has given the farmers a feeling of independence and security hitherto lacking. It has emphasized the value of co-operation, and the strength that is to be found in organized co-operative effort as contrasted with each man striving to work out his own problems and his own economic salvation.

The farmers of Western Canada have demonstrated the wisdom of having one great selling agency instead of one hundred thousand farmers each selling individually and in competition with each other. The object of the Kansas City conference was to try and devise ways and means whereby the great wheat producing countries of the world could co-operate instead of competing against each other. The most cordial reception was accorded the idea, and efforts will be made to devise a workable plan.

New Depot for Edmonton

The Canadian National Railways will build a new depot at Edmonton, Alberta, this year. The estimated cost is \$1,000,000. Tenders for the erection of the building have been received and the contract will be awarded as soon as they have been considered.

World's Shortest Railroad

The shortest railroad in the world now belongs to the city of Union, Ore., having been bought for delinquent taxes at a sheriff's sale. The line is ten miles long and the rolling stock includes one locomotive, one passenger and three freight cars. It sold for \$1,100.

Children Cry for

MOTHER—Fletcher's

Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Sincerely, Harriet, No. 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. Physicians everywhere recommend it.

Huge Dairy Farm

Largest Herd of Dairy Cattle in North America to be Established Near Winnipeg

There is now a herd of one thousand head of Holstein dairy cattle on the Manitoba dairy farms at Marchand, on the Canadian National Railway southeast of Winnipeg. It is the intention of the company, which is colonizing a 30,000 acre tract of land with dairy farmers to increase this herd to 5,000 head, which will make it the largest herd of dairy animals under one owner ship in North America.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the Great Penetrating Power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia, and colds. 25 cents at all dealers.

Whale Destroys Cable

A whale which interrupted traffic on the Alaska cable early in April chewed up so much of the cable that an \$8,000 replacement was necessary to restore communication.

THIS GREAT TONIC RENEWS STRENGTH

Simply Because it Enriches and Builds Up the Blood

In no trouble, is delay or neglect more dangerous than in anaemia, which means poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized. But taken in time there is a tonic that so enriches and purifies the blood that good health and strength soon comes to the former weak, anaemic sufferer. This tonic is Dr. Williams' Pink Pills, which for years have been the most successful blood-builder known and have credit for restoring to good health thousands and thousands of people who have suffered from some of the many ailments that come through weak, watery blood.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. As proof of this Miss Margaret A. Smith, Burgoyne, Ont., says: "After having a severe attack of jaundice I was left in a very weak and run-down condition. I was pale and my nerves on edge. I could not sleep at night and would tremble and turn for hours at a time. I finally decided to try Dr. Williams' Pink Pills, and soon began to feel better, and after taking a few more boxes of the pills I felt as strong as ever, and could thoroughly enjoy my rest at night. Now I always recommend these pills to any friends who may be ailing."

Better sleep, steady nerves, improved appetite increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers, or by mail post paid at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Australia's New Fruit

Australia is producing a new fruit called the cucumber apple for use in salads. Although it has the appearance of an apple, the flavor is said to be distinctly that of a cucumber.

For all pain—Mirand's Liniment.

It was believed during the Middle Ages that a child brought up without being taught any language would speak Hebrew spontaneously.

There is no poisonous ingredient in Holliday's Corn Remover, and it can be used without danger or injury.

If you have an ailment in life, you can't afford to wait any time in halting people.

Mirand's Liniment for dandruff.

Why Bald So Young? Cuticura will help You

To prevent loss of hair. Dandruff, usually the cause of premature baldness, may be easily removed by regular shampooing with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.

Sample Each Free by Mail. Address Canadian Depot: Hamilton, Ont. Price, One Shilling and Six Pence. Cuticura Shaving Stick 25c.

Clever Blind Student

Completes Four Years Arts Course in Three Years

Gregory Sullivan, blind since birth, has become such a good listener that he soon will have completed a four-year course at the University of Georgia in three years.

This election to Phi Beta Kappa national honorary fraternity, is the latest honor that he has attained. He also won the French medal offered the student making the highest average in that language.

Sullivan, who is 22 years old, has a general average above 90 and will be graduated in June with a bachelor of arts degree.

Throughout his college career, he has relied mainly on friends to read his text books to him.

Mennonites Purchase Land

Mennonites have bought 2,500 acres of land in the Vulcan district, paying \$125,000 to the vendors, Messrs. M. & H. Lyman. The Mennonites have acquired 12 sections this spring in Southern Alberta.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

An Indiana town has abandoned its fire department composed entirely of women. They insist on silk hose.

Use DUCO for hundreds of home uses

PAINTING in the home used to be considered a man's job but DUCO has changed that old idea.

Brush DUCO has a particular appeal to women. It is so easy to apply and it dries in less than an hour. Thousands of women are using DUCO who never did any painting before.

When you go to buy DUCO, people may tell you that other products are just as good. Don't be misled. Insist on getting genuine DUCO.

DUCO Clear and four DUCO Stains are now added to the wide range of colors.

Aerial Attack On Black Rust To Be Launched This Summer By The Dominion Government

An aerial attack on black rust, one of the most serious enemies of Canadian grain-growing, will be launched this summer in an experiment by the Dominion Government.

Two aviators, who were sent down to the cotton fields of the Mississippi, and there for a week studied the methods recently adopted for fighting the boll-weevil, with it, it is said, remarkable success, will give instruction for carrying on a similar campaign when the time arrives this summer, one in Eastern and one in Western Canada.

Wing Commander Anderson of Camp Borden said the aviators chosen were from that aviation body, that the aeroplanes would be taken from the camp, and returned there when the summer was over. The campaign, however, is being directed from Ottawa.

"In order to be effective," Wing Commander Anderson said, "the flying has to be done as close above the growing crops as is safe. The dust is contained in a special apparatus on the aeroplane, and considerable practice is necessary to operate it efficiently. Wind conditions have to be taken into account, and the dusting is only done while flying in a certain direction, relative to the direction of the wind."

So serious has the losses from black rust in the cereal crops of Western Canada become that in September, 1924, a conference was called at Winnipeg by the department of agriculture and the Research Council of Canada. As a result of this, a series of experimental projects, covering all phases of the subject, were mapped out to be carried on in Western Canada. The present aeroplane attack is a continuation of those experiments.

Sugar Beets

Proper Cultural Methods Will be Adopted in the Raymond District

Beet seedling began in the Raymond district the middle of April. J. W. Evans, of the agricultural staff of the Canadian Sugar Company, was the first to begin drilling in this district. As field supervisor he is urging beet growers to adopt cultural methods in order to conserve moisture, so that a good germination of seed might be ensured. A good stand of beets, he said, is a vital factor and the first essential towards heavy tonnage at harvest time.

Winnipeg Stock Yards

Better Prices Bring Greater Returns Although Volume is Higher Last year 453,139 head of cattle and 392,329 hogs were marketed through the Winnipeg Public Stock Yards, and realized \$12,947,000. Though the number of animals marketed was less than the 1925 record, the monetary return was \$1,000,000 greater, owing to the better prices that prevailed. Ontario feeders took 45,599 and 41,000 went to the United States feed lots, and 17,365 went to Manitoba farms. Sheep and lambs to the number of 55,850 were marketed, compared with 36,600 in 1925.

A Question of Safety

Keep your eyes to the front at all times while driving. Don't become so intense in your conversation that you must turn your head to address the person beside you or those in the back seat. Things happen suddenly in these days of swiftly moving automobiles, and the lapse of attention from the road for an instant may lead to a serious accident.

Canada's Only Blind Operator

The only blind woman in Canada who operates a switchboard is Miss Ethel Squair, of Toronto. She looks after the telephone calls at the Canadian National Institute for the Blind on Beverley street and works her board with speed and efficiency, completing her calls in the routine ten seconds allowed at the ordinary telephone exchange.

When it comes to silent partners many a hen-pecked husband fills the bill.

W. N. U. 1881

Brings In Good Revenue

Flour Milling Industry in Canada Shows Remarkable Growth

The Canadian flour milling industry is one of the main sources of Canadian industrial revenue; this manufacture rising with the pulp and paper industry for leadership among Dominion industrial activities in point of value of annual production. A recent government survey covering this industry since the first Dominion census was taken in 1871, reveals the remarkable growth of four manufacture in Canada, which has in the time placed its product on markets all over the world and made it as potent an advertiser of Canadian quality as the country's wheat. The development of the manufacture of flour in Canada has, in fact, very largely corresponded with the settlement and cultivation of the great wheat-growing territory of Western Canada, and it is reasonable to suppose that the future of Canadian flour production will be gauged to some extent by further settlement in the wheat-growing areas, which have recently been considerably expanded.

Winnipeg Newspaper Union

Navy Blue is Smartest

If you are partial to the straight silhouette, you will find much to admire in this distinctive frock of navy crepe. The straight bodice smartly fastens under a flat plait at the centre front, and a suggestion of the flare, now so popular, is achieved by the use of inverted plaits running from the curved lower edge of the bodice front to skirt hem. The back is in one piece and quite plain, except for a narrow belt caught in the side seams, which ties in the centre back. The collar is of the convertible type, to be worn high or low, and the long set-in sleeves have tab cuffs fastening at the wrists. No. 1320 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 38 bust requires 2 1/2 yards 54-inch navy crepe; 3/4 yard white crepe. Price 30 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

To Stamp Out Disease

Continuation of Educational Campaigning Will Be Necessary

A survey of health conditions during February across the whole continent, including Canada, has just been concluded by Metropolitan Life statisticians. The excellent health conditions which prevailed during January, continue.

Compared with February, 1926, there are pronounced declines in death rates from measles, whooping cough, influenza, heart disease and pneumonia. Rates for typhoid, scarlet fever, diphtheria, diabetes, respiratory diseases other than pneumonia, suicides and accidents were more or less higher.

So far, this year, there has been no alarming increase in the death rate from any disease but the small increase in diphtheria mortality constitutes a challenge to health workers. Since 1922, due to intensified campaigns for immunizing children and educational work, the disease has been registering a new low point each year. The death rate dropped 60 per cent between 1921 and 1926 and this success was perhaps the greatest single sanitary accomplishment of last year.

There has not yet been time to determine, definitely, what is the exact cause of this increase, but preliminary research seems to indicate that the type of disease now prevalent is of above-average virulence.

At any rate, the situation calls for increased watchfulness, a continuance of educational campaigns and an intensified effort to stamp out the disease.

The Art of Time Saving

Room for Many More Improvements Along That Line

In the old-fashioned kitchen our mothers walked many useless miles. The modern householder, if guided by intelligence, puts sinks, kitchen tables and cupboards in right relationship and saves steps every day so long as the house stands. But there is room for many more of such improvements and ample rewards awaiting those who can think. Time is worth more than it used to be. There are so many more things to do with it if it is saved. When our systems of education are broadened to meet the full requirements of modern life, doubtless they will give place to training in the simple yet mightily important art of time-saving.

Keeps Oath of Allegiance

Abolition of the oath of Allegiance to Britain was advocated in a bill which came before the Dail Eireann, but which experienced a quick death. President Cosgrave opposed it in the initial stage, saying that Ireland is in honor bound to observe the international agreement, namely, the Anglo-Irish treaty. The bill was defeated forty-seven to seventeen.

It is better to be slandered by some men than to be praised by others.

Party Of Canadian Farmers Will Leave For Europe To Study Marketing Conditions

Kansas City Woman

Is Customs Expert

Well Known to Officials All Over the World

A Kansas City woman, known in home and foreign posts as A. D. Jones, customs broker, has opened a new and interesting profession for women. Hanging out her business shingle twenty years ago before a Kansas City business office, Mrs. Jones has become one of the best-known customs experts in the world.

During the war vast shipments of raw materials and supplies were managed by Mrs. Jones at her desk in the inland port of Kansas City. While train after train passed through the Kansas City yards laden with ores from South America, Australia and the Orient bound for Oklahoma and Arkansas smelters, Mrs. Jones computed for the Government the duty on them and saw them properly invoiced and on their way.

Mrs. Jones had made an extensive study of customs law and treasury decisions before entering her profession. She has a keen legal mind that enjoys a tangle with the regulations of the rapidly changing tariff laws, and she has now expanded her services to such worldwide proportions that she is known to customs officials in every civilized country in the world.

Politicians From U.S.

Former American Citizens Enter Politics in Western Provinces

Hon. O. L. McPherson, minister of public works in the Alberta provincial government, is a native of Kansas. He moved to Vulcan, Alberta, in 1907 and began farming there. He now owns a 2,400 acre farm. Shortly after his election to the Legislature in 1921, when the farmers' party was voted into power, he was appointed Speaker and continued in that office until he resigned a few months ago to accept the portfolio he now holds. Ten other members of the Alberta Legislature came from the United States, and all have made a success of farming in Western Canada. Six members of the Saskatchewan Legislature also came from the United States.

Old Oak Canoe Found

An oak canoe, nine feet long, and estimated to be from four to ten thousand years old, has been unearthed on the south bank of the river Tyne, near Ryton. It is in an excellent state of preservation, and has been placed in the Hancock Museum, Newcastle-on-Tyne, England.

It takes a featherweight wife to make the heavyweight husband shake in his shoes.

The Canadian farmer is going abroad next year. He is going to study for himself a close ripple, in the very heart of the world's great markets, just what happens to his products when they reach the ultimate market, and he is going to learn a little more about how he can extend his business with this ultimate market.

A party of between 100 and 200 Canadian farmers and agriculturists will sail from Halifax, early next year, and under direction of Canadian National Railways officials, will visit all the important marketing centres of Great Britain, with visits to some of the famous livestock breeding farms, and a side trip to Denmark, for a special study of co-operative marketing. Dr. W. J. Black, director of agriculture, colonization and natural resources of the Canadian National Railways, has announced this plan, which is being arranged in Canada by C. G. Greff, former publicity commissioner for Alberta, and in England, by E. A. Weir, of the London office of the Canadian National Railways.

A tentative outline of the program suggests visits to the wheat exchanges in Liverpool and London, some of the mills, the Merleland wharves in Glasgow, where live Canadian cattle are landed and sold by auction for slaughter or for finishing on Old Country feed lots, and a side trip to some of these feed lots; the Smithfield market in London, and Covent Garden, the great fruit and produce market. Canadian butter, cheese, bacon and fruit, on British markets will also be seen.

The farms of some of the most famous breeders, particularly of Shorthorn, Friesian and Guernsey horses, will be visited, as well as districts where other noted breeds of livestock have been developed.

In a three or four-day trip to Denmark, visits will be paid to co-operative linen factories, egg, egg-sealer, as well as to some of the educational institutions.

Money in Sheep

Saskatchewan Farmer Finds Sheep Raising a Profitable Venture

A Saskatchewan farmer relates his experience in sheep raising as follows: "We kept 40 ewes through the winter of 1925-6 and fed them on oat sheaves, chaff and hay consisting of a mixture of wild upland hay, slough hay and sweet clover. The next spring we had 100 lambs, all of which we raised. The wether lambs were sold for \$9 each and the ewes were kept for breeding purposes. The wool clip averaged about 7 pounds per head and sold for 35 cents per pound. We had 100 lambs, all of which we cultivated land free of weeds if they are allowed to pasture on it."

Still Marketing Grain

C.P.R. Handling Grain at the Rate of 180,000 Bushels Daily

The Canadian Pacific Railway reports the marketing of grain at the present rate of 180,000 bushels daily, as compared with 128,376 for the corresponding season of last year. Manitoba's 190,000 compares with Saskatchewan's 531,000 and Alberta's 356,337. Last year's crop is above last year's record with 220 cars daily. Country elevator storage stands at 10,678,132 bushels, showing that there is still plenty of grain in the country.

Why He Was Interested

"Well, my little man, said the artist, 'you've been gazing at me all through the dinner and I feel greatly flattered. Would you like me to tell you a story?'"

"No, Mister," said the kid, "but Mama told me you had a receding chin. Won't you do it for me just once? and then I'll show you how I can wiggle my ears."

Mail service in Austria recently was suspended because a postoffice employee failed to deft his hat to the postmaster. Fellow employees offered aid at the postmaster's repentance, declared a strike.

Champion Cow

Another champion cow has made its bid for fame, this time appearing on the eastern horizon. She hails from Cumberland County, Nova Scotia, being discovered at Fox River. "Rosamond" as this cow has been christened, is the property of Harry G. Kerr who claims she is going to eclipse the records of Betsy Wiley the Nova Scotia world's champion milk and butter producer.

"Rosamond" is a Durham grade cow and she has produced 395 pounds of milk in one week, which churned 294 pounds of butter after deducting approximately 12 quarts of milk and 1 1/4 of cream for home consumption. This record is creating keen interest.

NO RETALIATION ON ACCOUNT OF BORDER RULING

Quebec, P.Q.—"There will be no effort at retaliation on the part of Canada because the United States have chosen to restrict the movement of Canadians who are employed in the United States, and we are moving that the whole matter will be amicably settled at the conference," declared Hon. Robert Forke, Minister of Immigration in connection with news despatches that the Department of Immigration had decided to investigate the number of Americans employed in this country as a means of retaliation against the United States measure.

Hon. Mr. Forke came from Quebec on board the Empress of France, for a three-months' tour of Europe. He was accompanied by Mrs. Forke and just prior to the liners' sailing quite an interesting event took place when a distinctive bell was made his way to the cabin occupied by Hon. and Mrs. Forke, and therein deposited huge bouquets of American Beauties and other flowers. There were a dozen or so bouquets among which was one from the local staff of the Immigration Department.

The Minister of Immigration stated that he was going over to Europe to look over the immigration conditions and matters there, and also to see whether there were any suggestions to be made to the Imperial Government, and others as to beneficial changes which may be made.

A possible increase in the 5,000 family scheme whereby the number of families which will come out to this country under the plan will be increased to 5,000, was voiced by the minister.

"Of course," said Mr. Forke, "this is a matter that is largely up to the Imperial Government, but as regards the 1,200 odd families that are scheduled to come out under the scheme this year, we will place them if we can find the land."

Must Surrender Aims To U.S. Government

General Disarmament in Nicaragua Essential if States Supervise Election

Managua, Nicaragua.—Plans are under way to drop from aeroplanes and otherwise distribute thousands of copies of a proclamation drawn up by Rear Admiral Latimer, commander of the United States naval forces in Nicaraguan waters, saying he has been directed by the United States government to accept the resignation of the arms and ammunition of those willing to give them up, including the government forces, and to disarm forcibly those who do not peacefully deliver up their arms.

"The United States government," the proclamation declares, "having accepted the request of the Nicaraguan government to supervise the elections in 1925, believes general disarmament necessary for the proper and successful conduct of such elections."

Large Bequest for Charity

Wife of Prominent Winnipeg Financier Leaves \$800,000 to Foundation

Winnipeg.—The Winnipeg Foundation, established several years ago for charitable purposes, benefits to the extent of \$800,000 through a bequest from the will of the late Mrs. Wm. Alloway, which has been made public. Mrs. Alloway, who died last year, leaves her entire estate to the foundation. The amount is exempt from succession duties. Mrs. Alloway was the wife of William Alloway, prominent Winnipeg financier.

Non-Stop Flight to India
London.—Announcement has been made that Lieut. C. B. Carr, as pilot, and Flight Lieut. L. M. Gillman, in a big specially constructed Hawker-Beyce machine which passed its test at Brooklands, will start probably on May 20 from the Cromwell aerodrome in Lincolnshire on a non-stop flight to India, a distance of 4,000 miles, which they hope to accomplish in 48 hours.

W. N. U. 1681

Forecast Heavy Grain Shipments to Europe

Large Volume of Tonnage Has Already Been Chartered

Port William, Ont.—Record grain shipments have left head of the lakes ports since the official opening of navigation April 15, according to a report issued by F. A. Ursell, statistician to the grain commissioners. Shipments to April 30 totalled more than 10,000,000 bushels and heavy export shipments from seaboard ports to Europe during May and during the early part of June are forecast in the report.

Mr. Ursell says: "From reports received from different sources, the export movement from Atlantic seaboard ports to Europe will be very heavy throughout May and at least the early part of June. A very large volume of tonnage has been chartered already, aggregating close to 10,000,000 bushels of all grains. These heavy purchases undoubtedly are occasioned by a more or less urgent need of grain. Although statistics of the world's wheat show an ample surplus, supplies in exporting countries over indicated requirements by importers, the short age of the rye and potato crops of 1924 are partially responsible for a larger wheat consumption."

It is apparent, Mr. Ursell points out, that a large portion of export grain will be shipped via United States Atlantic seaboard ports, a heavy volume of tonnage having been chartered, much of it rates around 12 cents per 100 pounds to some British ports and Antwerp-Rotterdam.

Ready to Test Beam Service

Messages Between Canada and Australia Possible Within Six Weeks Is Report

Melbourne, Australia.—It is official by word that the Marconi beam service between Australia and Canada is now practically ready for testing purposes. The aerial transmitting station is almost completed and the assembling of the transmitting apparatus well advanced.

Hopes are entertained that the service will be in operation within six weeks or possibly a month.

Montreal officials of the Marconi company confirmed the above report, declaring that the situation in Canada was practically the same as in Australia.

Mr. Thompson, the chief engineer, said that the messages from Australia would be received by the apparatus at Yarmouche, near Three Rivers, and that Canadian messages to the Commonwealth would be dispatched from Drummondville, Que. He expected the beam system would be functioning properly within six weeks.

No Change in Policy

Britain Will Keep Mission to the Holy See

London.—Maintenance of an official British representative at the Vatican now can be regarded as a permanent policy of the British Government, Sir Austen Chamberlain, the Foreign Secretary, announced in the House of Commons.

"The Government does not intend withdrawing the mission to the Holy See," said Sir Austen. "It was found convenient to establish this delegation at a time of international trouble and difficulty, and to withdraw it now would be an almost offensive action to adopt."

British relations with the Holy See were established in 1914.

Says Water Seal Aided Tragedy
Toronto.—Sir Frederick Stupart, Director of the Toronto bureau of the Dominion Meteorological Office, expressed the definite opinion that if any excess of water had not been taken from the Great Lakes system through the Chicago drainage canal, the raging Mississippi floods that have taken such toll of life and property would have been very much less severe.

Ministers Doing Double Duty

Ottawa.—Hon. J. A. Robb, Minister of Finance, will be acting minister of trade and commerce during the absence of Hon. James Macdonald in Europe, and Hon. Charles Stewart, Minister of Interior, will be acting minister of immigration while Hon. Robert Forke is in the Old Country.

GOOD PROGRESS BEING MADE ON H. B. RAILROAD

Mile 320, Hudson's Bay Railway.—Following completion of a trip of inspection to the end of steel on the Hudson's Bay Railway, Hon. Charles A. Dunning, Federal Minister of Railways and Canals, declared he was gratified by the amount of work completed and agreeably surprised at the manner in which the rehabilitation of the line has advanced.

Weather and other conditions, coupled with some difficult engineering problems, had tended to interfere with the progress of the work, but Mr. Dunning felt that these had been met and that, allowing for the late spring, those in charge of the building program now have their schedule well in hand.

The trip to Ketile Rapids, on the Nelson River, was made by train and from there to the Limestone River, Mile 320, the end of steel on the line.

The terminal under construction at Bowden, Mile 337, was inspected Wednesday, Mr. Dunning and party inspecting the roughhouse, coating plant, machine shop and other work now underway at that point.

W. A. Kingsland, general manager, Western region, Canadian National Railways; H. A. Dixon, chief engineer; and J. G. MacEachan, divisional engineer in charge of construction, accompanied the minister on his inspection tour.

Increase in Canada's Trade

Total During Twelve Months Shows Advance of Forty-two Millions

Ottawa.—Canada's total trade increased approximately \$120,000,000 during the twelve months of the fiscal year ending March 31. Total trade for the 12 months was \$2,298,465,847, as compared with \$2,256,828,869 for the previous 12 months and \$1,878,294,180 in the 12 months ending March 31, 1925.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$103,000,000 in imports when compared with the 12 months of the previous fiscal year.

Want Labor-saving Devices

Geneva.—Women delegates to the international economic conference contributed their bit today to the plans for the world's economic restoration. They introduced a resolution for the creation in all countries of committees comprising of housewives and manufacturers to establish practical types of household utensils which would economize labor both in the home and in the industrial production of such articles.

To Build Big Hospital

Toronto.—Mrs. A. E. Huestis, recently introduced a resolution regarding the Women's College Hospital to the provincial legislature. It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

Returns From World Tour

Mrs. George Stephen, Winnipeg, who arrived in New York April 12 on board the Canadian Pacific flag ship Empress of Scotland, having completed a 30-day tour of the world, visiting twenty countries. Mrs. Stephen was in Shanghai and Peking about two months previously.

Irish Free State Cannot Claim Bonds

Is Not Successor to Irish Republic Says U.S. Judge

New York.—Supreme court Justice Peters dismissed the suit brought by the Irish Free State claiming to be successor of the "Irish Republic" and entitled to the \$2,500,000 bonds, the unexpended portion of more than \$6,000,000 subscribed for in the United States for the republican cause.

Justice Peters also denied the claim of Eamon De Valera and his cotrustees, O'Mara, to the bonds and ruled that the proceeds from the sale of the bonds here should revert to original subscribers.

Justice Peters, in his decision, refused to allow the claim of the Free State that it was a successor to the self-styled Irish Republic, on the ground that, as a de facto government the republic had never existed and therefore could have no successor.

Many Unemployed Men Available for Farms

But Demand in Alberta Is Expected to Drop Off

Edmonton.—With about 5,000 men placed in farm employment throughout the province this season, the peak of the spring farm labor situation has been reached, according to Walter Soutter, commissioner of labor, and from now on the demand will be steadily dropping off. There are still a good many unemployed men available for work on the farms if wanted, but the lateness of the season, the reduced acreage in consequence of labor, and the influx of immigrant labor are combining to restrict the calls for help from Alberta farmers.

Notwithstanding the more or less unusual features of the situation this spring, the total number of men placed is not greatly below that of last year. About 5,600 placements on farms were made for the same period a year ago.

Can Deport Immigrants Who Refuse Positions

Department Has Power to Deal With Such Cases

Ottawa.—A week of good weather would clear up any congestion of immigrants in the western cities, it was stated at the immigration department offices. The ceiling being so late this year has meant that the usual demand for farm labor has been retarded.

The department stated that if, as reported, men who had entered the country as farm workers are refusing to take positions, deportation was the quickest and most effective method of dealing with such cases. The department has the power to send immigrants back to their countries of origin if they refuse to take work when it is offered.

Parties Almost Even

St. John's, Nfld.—A legislative election which the parties are almost evenly divided opened its season here May 4. Premier Monrope will have 18 followers in the legislative assembly, while the oppositionists will number 17.

SOVES PROBLEM OF ELIMINATION OF WEED PESTS

London.—The problem of the scientific elimination of certain weed pests, which has baffled researchers in America and Europe for 50 years, has been solved, it is claimed, by a young Canadian scientist, Leonard Huskins, of the University of Alberta.

At the Royal Society here he showed the results of two years' experiments at King's College, London, and the Horticultural College at Merton, to which he recently has been appointed. Professor Huskins' discovery, which is of great value to farmers, as it is expected to bring about an appreciable improvement in cereal crops, consists of tracing the reversion to the wild type of the so-called false wild oats, which are a well known pest in Canada and the United States and elsewhere. Irregularities in the chromosomes, were found to be responsible for these abnormal reversions, which also occur in wheat and other food plants, and it is asserted that through this discovery it will be possible to produce varieties of plants containing the normal type of chromosomes, which never produce degenerate forms.

May Press For Settlement

Possible Claim May Be Filled Over Seizure of Federal Ship

Vancouver.—Possible filing of claims by the Consolidated Exporters, Limited, against the United States Government in connection with the recent seizure of the liquor-laden steamer Federalship was indicated here by Harold Faulkner, San Francisco attorney, who was in Vancouver conferring with officials of the company. Mr. Faulkner claims that, because of admittedly illegal seizure by the United States of a vessel of foreign registration, the way is open for normal and physical claims "in connection with damages sustained by the company and crew. According to Mr. Faulkner, it is the purpose of the company to go into the matter immediately and, if claims are sufficient to warrant such a procedure, to press for settlement.

Strange Phenomenon In Owen Sound Harbor

Water Moved Out and Returned Much Above Normal Level

Owen Sound, Ont.—Voyagers in Owen Sound harbor and the Sydenham river were stirred up, greatly recently, and no reason has been found for the phenomenon. Within a few minutes the waters in the harbor moved out so that the level was two feet lower than usual.

When the water returned, the level was much higher than under normal conditions. At one time the waters in the harbor got so low that some boats were resting on the mud at the bottom.

Sends Demand To China

Japan Wants Soldiers Removed From Cagulate at Nanking

Tokyo.—Japan has peremptorily demanded that the Chinese authorities at Nanking give orders immediately for the withdrawal of soldiers who occupied the Japanese consulate at Nanking after the outbreak of March 24, says an Exchange Telegraph despatch from Tokyo. The demand, the despatch states, was not sent in the form of an ultimatum, but it is expected in Tokyo that the Chinese will comply without hesitation.

Task for Boy Scouts

Ottawa.—The Boy Scouts' Association of Canada has offered its services to the national committee for the celebration of the jubilee of Confederation, and has requested that it be them be allotted the task of decorating the graves of the Confederation Fathers. Where the graves of the Fathers are distant from central points, the Scouts will delegate faithful members of its order to perform the task. Simple wreaths of Maple Leaves will form the decoration.

SEE CANADA IN CANADA'S DIAMOND JUBILEE YEAR, 1867-1927

CANADIAN NATIONAL EUROPEAN TOURS.

A maximum of travel thru particularly interesting countries at a minimum of expense is provided in the Canadian National Educational tours this summer thru Scotland, England, France, Belgium, Switzerland and Italy.

Two tours have been arranged and sailing will be made from Montreal, July 8, on the SS. "Andania," direct to Glasgow. Very careful attention has been given to the itineraries involved.

Tour No. 1 is a 37 day trip on sea and land, visiting important cities in Scotland, England, Belgium, France, Switzerland. All expenses, \$372.50, Montreal to Great Britain and the Continent and return to Montreal.

There will be low excursion fares to the seaboard from points in the Prairie Provinces.

These tours will be personally conducted from Western Canada, and while overseas will be under the direct care and supervision of thoroughly responsible and reliable organization, fully qualified in every particular to successfully look after the interests of our patrons.

The night seeing program is very complete and generous. Motor-cached automobiles are included. All sight seeing is well planned to save unnecessary fatigue and to see the worth while places within the time at our disposal. Competent lecturers will reveal to our patrons the outstanding features, literary, historic, artistic or scenic of the Old World countries visited. J. W. McCulla, phone 23, local agent for the Canadian National Railways, will be glad to discuss these tours and arrange all details.

Here and There

Hamilton's air port comes into operation May 1st. The property used is four hundred acres in extent. A large hangar is being constructed and the old homestead on the property will be remodelled as an aviation boarding school.

Driven by over-population to eating bark of trees and seaweed from the ocean, the wild geese of Ozaukee Island are changing their habits and, in some respects, their form. They are learning to climb leaning trees in search of foliage.

According to recent game regulations in the Province of Alberta, prairie chicken, grouse, partridge, greater and lesser yellow legs, black breasted and golden plover, are now on the protected list, while the hen on Hungarian partridge north of the North Saskatchewan River, has been lifted.

It has been announced by Premier Ferguson, of Ontario, that the Government, with urgent forces in Shanghai, of an industrial research institution with an endowment of \$2,000,000 for the purpose of solving scientific problems of production and process for Canadian industries.

While on a tour of the Maritimes recently, Dr. F. T. Wahlen, chief of the seed branch of the Department of Agriculture at Ottawa, was of the opinion that a great deal more of the seed used in these provinces should be grown on their own farms. The seed is very hardy, he declared, and, with proper care, a market could be established in the northern states of the Union, and the crop profitably disposed of.

The versatility of the seaplane was ably demonstrated recently. C. F. Tennesoff, a Swedish sea captain, engaged in business in Shanghai, was taken from the Canadian Pacific Toronto Express at Mission City, B.C., and rushed by seaplane to the outer wharf at Vancouver, where he caught the flagship of the Canadian Pacific fleet, the "Empress of Canada" for the Orient. The seaplane was landed on the Fraser River within easy reach of the depot.

The season for bass fishing in Ontario, with the exceptions of the St. Lawrence and the Ottawa Rivers, has been shortened this year by about a fortnight, opening July 1 and ending November 30, according to information given out by the tourist department of the Canadian Pacific Railway. This action was taken by the Ontario Provincial Government when it was found out that bass had not finished spawning when the season opened June 16 in previous years. The same ruling applies to muscalunge fishing in Ontario this year.

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commissioner at Bristol. One organization has built a factory in Ontario, have their own buyers, and are packing the leaf, Canadian Buryley, to suit the English trade. Consumers in England are getting used to Canadian tobacco and with the Empire preferential duty, which amounts to 48 cents per pound less than the duty on foreign tobacco, increased quantities of Canadian Buryley will find their way to the United Kingdom.

In token of the fact that this year is the Diamond Jubilee of Confederation in Canada, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, has extended a personal invitation to Miss Hortense Cartier, only surviving daughter of Sir George Edmund Cartier, one of the Fathers of Confederation, to take part in the trip across Canada, organized by the University of Montreal under the auspices of the Canadian Pacific, to start in July. Miss Cartier, who is in her 78th year, has accepted and it is expected that she will meet Sir Hu McDonald, son of Sir John A. MacDonald, another Confederation Father, who is police magistrate in Winnipeg.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

"Worth its weight in gold" Says Ottawa Matron

Mrs. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mrs. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured at that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and my stomach gave me evil of trouble. Gas and pains would bring on fainting spells."

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to be still for even a few moments. Even my housework became too much for me."

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I regained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever, Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your doctor has it. Over 52 million bottles sold.

brilliance, and a hitherto unheard orchestra was playing symphonic strains that contrasted strangely with the music coming from the box.

With shrill laughter and ardent exclamations the guests swarmed down upon the lighted pavilion and surged between its columns into the little sea of seats provided for them before a stage draped by a glittering curtain of lower petals. When the guests all had found their way inside the pavilion the footmen and caterers began their task of gathering up the various paraphernalia of the night, and chauffeurs moved toward their waiting cars. Whatever was to transpire within the arboreal pavilion, it would be the breaking up of the Golden Girls' fête.

Kentworth and Yvonne walked together to the cluster of seats that had been reserved for Joanna and her closest intimates. They saw that Teddy, Dornier, and Betty West, Dornier, Prince Michael and others who would naturally be of their party, had found their places. Brandon's absence from the fête already had been commented upon. But both Kentworth and Yvonne were curious when they saw that Joanna was

not among her usual guests.

"More of mystery," Kentworth observed. "Have you yet discovered what this personally arranged affair of hers is going to be?"

"She has guarded her secret tremendously," Yvonne replied. "It had been the main thrill of her preparations—arranging something of which nobody but she has known anything. I have not tried to get her confidences."

"I decided to look about for her, but Joanna just then came up."

When Yvonne looked, suddenly, into her face, she started. The Golden Girl's eyes were shining. Yvonne sensed the tenderness of a suppressed emotion. She advanced to meet the girl, and stood with her a moment.

Stragglers brushed by them. They would have surrounded the two hostesses, but Joanna urged them all to join the crowd under the minnow roof. When there was opportunity she took both of Yvonne's hands in hers.

"Whether my little climax is a success or a failure," she said, very softly, "or whether I have not told you to know my dear that I have understood many things right along, and the best of them was—you and John!"

She dropped the elder girl's hands, then, and went toward the hidden door that led from the outer lawn onto the stage behind the flower curtain. Yvonne reached out to catch at her, but was too late. She stood, undisturbed, and Kentworth approached her. She went with him to their seats before the stage. As if their arrival were a signal the leader of the orchestra, raised his baton. The lights were extinguished. There was deadly stillness, then, like the breaking of a great wave in

CHAPTER XXV—Conclusion

The curtains spread upon vague shapes that took form in a phantasy that slowly emerged from a vapor of pale blue light. Out of a far background, admirably conjured by skilled artists, spires and domes and gabled roofs of a beautiful city shone. Illuminated windows showed light. Miniature streets, crooked and narrow, came down out of the perspective and converged upon an open space before the invisible lights—the palatial city's market place.

In the centre of the square a pillar arose, with a rim of water trough at its base. Against this column, her head bowed, shoulders drooped and motionless body limp in a posture of despair, leaned an unknown girl, of some warm plumed type, her body gleaming white through a diaphanous

CHAPTER XXV—Continued

Dornier also captured her for a fleeting moment. He found her standing at the side of one of the fairy pools, out of the view by a cluster of columns which supported one of the arches that spread the imitation moonlight. The little lake was one of those that were perennially part of the landscape in some of the grounds, and the house of swans. One of the majesty creatures, petulant at the noise, lurched upon accustomed hours of slumber, had approached the slender figure at the water's edge angrily, with a rasping protest. When it saw that the single form was that of its mistress it smoothed its wings and craned its neck toward her. She had offered it no crumb but it did not withdraw its outstretching head. Its beak-like eyes remained fixed upon her. The appearance of Dornier, who had trailed her, drove the water bird away. Joanna turned on the newcomer.

"Why did you come just then, Teddy?" she protested. "I think in another minute it would have sung. I've always wanted to know what a swan's song sounds like."

"Then listen to me," he returned, gaily. "I'll make you hear it. I'm always singing when I'm with you, you know."

"Singing foolish roundelays, Teddy. Only foolish ones. You mustn't do

that now. I'll permit no one to be so foolish or disconcerted."

He wanted to talk of himself, and of her. It was the subject he always fell upon, but she outwitted him easily. She was about to command him to take her back to her guests, when she was suddenly pale. Teddy saw and looked about quickly. John had trailed her, too, and was coming up to them. Teddy knew the significance of that sudden paleness, and went away with a gaily easy word over his shoulder.

"I've tried to get to you all day," John exclaimed. He tried to reach for her but she eluded him.

"I have been busy," she explained, simply. "There's been so much to attend to—bills to be gathered up and put in a package before they're lost. And other things to do. I've seen no one today."

"Will you give me time, Jo, to talk with you? I can't be frivolous like everyone else, tonight. I'm full of something that is for you. Can't you have a half hour?"

"Some other time, Joan. Tomorrow or next week, perhaps. There's no room inside of me for anything but idle chatter. You may take me back to my guests."

"Tomorrow, then."

She let him have her hand for a moment, but withdrew it gently. Once or twice she stole a glance into his eyes and saw that they gleamed with earnest things, just as his lips had spoken only of indifference. When they were about to move out of the shelter of the flower hung pillars he took her suddenly in his arms. She did not resist, but yielded to him simply. He felt no response in the slim little body and released her. He was conscious, though, that in that embrace he had said much that he wanted to say, and that she would understand. He was more content, then, to wait until the morning.

The hours passed, gay, colorful hours, that were speeded by a continuous plying up of festival surprises. No grand duke in the old days had confounded his guests with a more stupendous program of sense entertainment. But always there loomed a climax to such affairs—such for instance as that time when an oriental potentate endowed his favorite companion, during a celebration on the Amaleto grounds, with a marvelous coat of emeralds. The guests of Joanna and Yvonne knew this time had arrived when, shortly after two o'clock when the fragrance of minnow was heaviest, the moonlight were swung by invisible hands until their midday glow was concentrated upon the long, low pavilion built behind the Trianon house. There had been a mystery about this pavilion that had whetted curiosity. During the earlier portion of the night it had been wrapped in darkness. Now it was bathed in

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me any good. My husband and my father did my work for me as I have two children and we have quite a big home. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got home from the store. I am feeling fine now and do all my work and am able to go out around my home. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHMOND, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sensitive Wash I feel better than I have for the past seven years, and advise my friends to take it. I am feeling fine now."—Mrs. J. H. HARRISON, 42 Moore Street, St. Thomas, Ont.

Homestead Filings

Homestead Filings in Western Canada during the first quarter of 1927 totaled 1,036, as compared with 1,232 in the corresponding period of 1926. In Manitoba 128 quarter sections were filed upon, in Saskatchewan 513, in Alberta 367, and in British Columbia 12.

Nationwide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, larynx and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Thriving Swiss Settlements

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland here. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettin, Alberta.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold, it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

When a young married man gets sick his mother always imagines that it is due to his wife's cooking.

Treat corns with Minard's Liniment

A French scientist has invented a vacuum bottle to hold liquid oxygen for use of aviators in altitude flights. The liquid vaporizes as fast as it is breathed.

Appetite Gone? Nervous? Why Wait for a Breakdown?

Little Helps For This Week

If thine enemy hunger, feed him; if he thirst, give him drink; for in so doing thou shalt bear costs of fire on his head.—Rom. xli. 20.

But if for wrongs we must have revenge, then be it ours to be the noblest kind; Do we his body from our fury save, And let our hate prevail against our mind?

What a contrast! What a greater vengeance Be than make his foe more worthy far than he.

—Lady Elizabeth Carey.

If thou must needs have revenge of thine enemy, with a soft tongue break his bones, heap coils of fire on his head, forgive him and enjoy it. To forgive our enemies is a charming way of revenge and short Casarean conquest, overcoming without a blow; laying our enemies at our feet under sorrow, shame, and repentance; leaving our foes to friends, and inflicting no injury to grateful retaliation.

—Sir Thomas Browne.

Conscientious people are like ideas. They refuse to strike a man when he is down.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grows up here." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead. Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the newborn babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

When a young married man gets sick his mother always imagines that it is due to his wife's cooking.

Mrs. I. Hicks
London, Ont.—"Dr. Pierce's Golden Medical Discovery is the tonic I took when in a weakened and run-down state of health and it strengthened me at once. My appetite improved, and my nervous system became normal. In fact, I had felt so much improved in health since I took the 'Medical Discovery' that I would never hesitate to recommend it to any other person who is in a debilitated and nervous condition. It is the only tonic I would ever take again if necessary."—Mrs. I. Hicks, Golden Medical Delivery.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists, in tablet and liquid form. Send Dr. Pierce 10c if you wish a trial package.

P.M., in aid of the Red Cross. Tickets,
one dollar a couple.

Follows Route of Empire Founders

1. View of the locks at the "Soo". 2. The S.S. Ashtabula locking through at Saint Ste. Marie. 3. Transferring from train to ship only takes a minute or two at Port McNicoll. 4. Port McNicoll's busy harbour showing grain boats and elevators in the background.

Centuries before the railways, the automobile, the trolley car, or the aeroplane, the Great Lakes were the highways, and canoes the popular vehicles of transportation, exploration and conquest. Leaving Montreal, Quebec and other points, the great La Salle, Marquette, Hennepin, Radisson and Mackenzie, a gallant crew of explorers and adventurers, passed through the Great Lakes on their way to found Illinois, Indiana and other states of the Middle West. La Salle who went from Quebec to the mouth of the Mississippi and paddled his way back, made the Great Lakes his highway; He and his doughty companions found and lost an empire. The hardships of these early explorers have been done away with in modern travel on the great Lakes.

but glamour or their expeditions and the beauties of their route still remain. Aboard one of the Canadian Pacific lake steamers like the Ashtabula or the Kewatin in the heart of the continent, the fresh water sailor leaves Port McNicoll situated on the shores of the Georgian Bay, passes the entire length, through Lake Huron and the famous "Soo" canal and locks and into Lake Superior. The journey requires only two days and is through one of the most picturesque parts of the Dominion.

The Port McNicoll-Owen Sound journey, aboard the Manitoba is another delightful trip. The latter port is beautifully situated between two high walls of rock at the southern end of an arm of the Georgian Bay. This is one of the finest harbours on

the Great Lakes. The journey from here to the "Soo" is bristled with scenic beauty, along the rocky coast of the Bruce Peninsula that stretches away to the north towards Manitoulin Island. The great cliffs of this peninsula rise up over 100 feet from the deep clear waters of the Georgian Bay. From Fort William, one of the greatest grain centres in the world, the traveller may proceed westward across the prairies. Few transcontinental journeys can offer such a delightful diversion in travel as the Great Lakes trip. The traveller can board the steamers at Port McNicoll, travel one fifth of the way across the continent and then resume his rail journey at the head of the Lakes.

Spruce Grove News

Murfin's orchestra pleased the big crowd of patrons who attended the dance at the Spruce Grove pavilion last Friday night. Dancing started at 9.30, and from then on the dancers had a busy time.

The local butcher, Mr. M. McKeen, is complaining of the scarcity of good butcher cattle.

Mr. Geo. R. Dickie, the well-known promoter of Jasper Highway Amusement Hall, was a visitor, this week, to the Grove. George looks well, and spent a very pleasant winter in the South.

On May 10 to the wife of Mr. Fritz Jesting, a son.

On May 13, to the wife of Mr. Charles Steller, a daughter.

On May 14, to the wife of Mr. Theodore Wudel, a daughter.

On May 15th, at Golden Spike, to the wife of Mr. John Shuster, a son.

Stony Plain and District.

Services were held in St. Oswald's church, Stony Plain, on Sunday evening, under the auspices of the Baptist Church. The services were conducted by Rev. W. Benke, and were in English and German.

There is a big Walther League Rally in Edmonton on Sunday next, and the Stony Plain branch is arranging to attend in a body.

On Friday afternoon last the farm house on "SE 29, 52-27-w4 (two miles east of Stony Plain) caught on fire and was entirely consumed, with the contents. The farm and building was the property of Mr. J. Enders. The house had been occupied by Mr. Anton Balwar, who had the contract to "brush" 25 acres. The Balwar family lost all their goods. A defective flue is supposed to have been the cause of the fire.

Mr. Karl Strass, builder, is starting this week on the construction of the new school building at Duffield.

The sports committee at Holborn has arranged a first-class program of events to be run off at their big anniversary picnic on Tuesday next (Victoria Day), May 24. The list includes a few novel contests for the ladies. All Stony Plain is "fizzin'" on being present.

Excursion trains will be run to Seba, Wabamun and Falis on Tuesday next (Victoria Day) leaving Edmonton at 9 a.m.

Wheat Pool News Notes.

Alberta Wheat Pool local elevators have handled a total of over five and a quarter million bushels of wheat from the 1926 crop.

The Pool has 42 local elevators in operation at the present time; 100 additional elevators will be built or acquired during the spring and summer.

The average handling of the Pool elevators to date is 124,789 bu. per elevator. On the whole, the record of the Pool group of "houses" has been satisfactory.

Strome Pool elevator heads the list with 286,979 bu. Ponoka Pool elevator had 218,493 bu.; Coldlade 218,500 bu.; Killam 214,300 bu.; Hussar 209,836 bu. Other elevators which made a good showing were: Woodhouse, Dayland, Dalemead, Ensign and Caator.

Stony Plain and District.

The officers and members of Meridian Lodge No. 129, A. E. and A. M., U. R. A., held their annual banquet in Wudel's hall Tuesday evening, with the W. M., W. Bro. T. Scott, presiding. About a score of the brethren from the City were present, including W. Bro. R. B. Brooks, I. P. M. Mr. Albert Oeming, the Stony Plain restaurateur, did the catering.

Don't forget the whist drive and dance given by Stony Plain Red Cross branch tomorrow evening, in Wudel's Hall.

The W. I. Girls' Club have postponed their dance from Tuesday, May 24th, to the evening of Friday, June 3rd (the King's Birthday) in Wudel's Hall.

A very enjoyable dance was given Saturday evening at Rosenthal Hall.

Miss Mary and Mr. Val Pailer motored out from Edmonton, Sunday, to the home of their parents at Glory Hills.

M. M. Mecklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, May 30th. See him and see well.
